6. ThinkVision TFT radial arm supports attachment of LCD monitors that have a 75mm or 100mm VESA mount.													
14. USB attach only													

### ThinkStation:

- Mixing of Serial ATA and SAS Hard Drives is not recommended. Most S-Series models are configured with Serial ATA Hard Drives, and most D-Series models are configured with SAS Hard Drives.
- S-Series need a SAS controller installed to work with SAS drives
- If a 2nd processor is installed, the 2nd processor must match (matched pairs) existing installed Intel
- Mixing ECC (Error Correcting Code) and non-ECC is not allowed.
